PROFESSIONAL SUMMARY

Clinical operations professional with 10 years of clinical research experience, progressing from Junior to Senior CRA and currently working as a Clinical Operations Associate / Analyst in a CRO environment. Proven track record of improving clinical operations through **data-driven reporting, workflow automation, and process optimization**: contributed to 15+ clinical studies, **established a non-IP depot service** supporting 40+ European sites, **reduced depot order-processing timelines by 50%**, **achieved approximately 90% on-time depot delivery**. Combines practical clinical trial knowledge with data analysis and business intelligence skills, including data cleaning and transformation, statistical analysis, dashboard development. Strong ability to translate operational data and clinical insights into practical tools, reports, and processes that support informed decision-making.

PROFESSIONAL EXPERIENCE

VIACRYSTAL KFT. — CRO, operating in Central and Eastern Europe

Clinical Operations Associate / Analyst

Aug 2024 – Sep 2026

- Participated in 10+ clinical trial feasibility assessments, evaluating country-specific recruitment potential, treatment standards, investigator and site capabilities, budget considerations to support study planning and country selection.
- Developed a BI-based feasibility reporting template consolidating feasibility findings and improving visibility of recruitment potential, site capabilities, and country-level operational considerations.
- Established a non-IP clinical trial depot service supporting CRAs, Project Managers, Depot teams, covering 40+ European sites from order collection and approval through shipment and stock visibility. Developed the depot operational reporting framework, improving process visibility and reducing the total time required for order submission and approval by 50%. Achieved approximately 90% on time delivery through improved operational tracking, coordination, and process control.
- Developed a CDA generation workflow/tool, reducing CDA preparation time by approximately 90% and improving process standardization.
- Developed and coordinated the Viacrystal Expert Network, connecting practicing clinicians with Sponsors and CROs to support feasibility assessments, clinical strategy, and understanding of local clinical practice.
- Support cross-functional activities involving Sponsors, investigators, CRAs, Project Managers, and internal operational teams.

BIOCAD, JSC — Biotechnology Company / Drug Research & Development

Clinical Research Associate, from Junior to Senior

May 2016 – Jul 2023

- Participated 15+ projects from start-up to close-out resulting in accurate and timely completion of study milestones (8 - leading role, 4 - international team)
- Provided support to clinical trial leaders in project management, including vendor oversight, site establishment, budget management, and study tool development
- Tested 3 electronic systems with successful implementing, streamlining data management processes (Electronic Data Capture, Clinical Trial Management System, electronic Trial Master File)
- Implemented electronic report template, reduced preparation time by 30%
- "Best employee" 2022 award, "Best team" 2017 and 2020 awards

DIFFERENT

Pharmacist

Feb 2012 – May 2016

- Provided pharmaceutical consulting and customer support.

PORTFOLIO

- [Feasibility report](#) – Data Studio (Former Looker studio)
- [Depot interactive report](#) - Data Studio (Former Looker studio)
- [Project Review Form](#) – Power BI

EDUCATION

Data analyst, Netology Online Academy

Aug 2023 – Aug 2024

Pharmacist, St.Petersburg State Chemical Pharmaceutical Academy

June 2013

CERTIFICATIONS & TRAINING

Power BI / SQL for Data Analysis / Python for Data Analysis / Python Libraries for Data Analysis / Basic Statistics / Excel Skills for Business / English for Speakers of Other Languages — University of Cambridge

CORE SKILLS

Understanding of database principles / Programming languages (Python, SQL) / Data visualization tools (Power BI, Pythonlibs, Looker Studio) / Interpersonal skills and ability to work in a collaborative environment / Descriptive and inferential stats / Data cleaning, transformation, integration / Analytical mindset, risk awareness / Strong report writing skills / Problem solving / Ability to follow instructions and work in a team environment / Self-motivated and able to proactively learn / Ability to work in a collaborative environment
